

Effective Prosecutions Require Trustworthy Evidence

Wrap Intinsic Collects and Stores Evidence—Always On, Always Secure

WRAP®

WRAP INTRENSIC

1 **Wrap Intinsic: Increase Transparency through Technology**

When the collection and presentation of evidence in a criminal case fails, it's often due to one simple fact: human error. Memory alone may not capture all the details of actions and evidence. Even the most objective observer can be confused by one's physical perspective and/or the chaos of a violent confrontation.

Yet, public confidence in our criminal justice system requires an unwavering belief in the integrity of evidence presented at trial. This is why minimizing human error in law enforcement is essential to public safety.

1 **Technology Offers Objectivity**

In the wake of high-profile cases involving accusations of police overreaction and suspect abuse, communities are increasingly demanding field officers wear bodycams and employ more tech to provide objective evidence of police activities, especially when use of force is involved.

This works to everyone's benefit. It increases transparency while also providing powerful evidence for prosecuting perpetrators.

2 **Ensure Integrity and Speed of Evidence Collection/Management**

Wrap Intinsic takes the police bodycam to the next level. Our comprehensive, secure, and efficient camera and evidence collection and management solution is designed with cutting-edge tech to quickly capture, safely handle, securely store, and seamlessly track evidence to increase police effectiveness.

With Wrap Intinsic, field officers can effortlessly collect:

- High-quality video
- Audio-only recordings (as needed)
- Snapshots (without disrupting recording)

The Wrap Intinsic system efficiently stores, integrates, and manages evidence digitally, providing an impartial perspective, bolstering prosecutions, and contributing to just outcomes.

- Officers can instantly upload evidence via an accessible wireless charge and sync cradle.
- With Wrap Intinsic's Evidence on Cloud platform, digital files of all forms can be added, consolidated, and meticulously managed.

Effective Prosecutions Require Trustworthy Evidence

Wrap Intinsic Collects and Stores Evidence—Always On, Always Secure

3 Secure Evidence with Confidence

Leveraging swift and secure mobile cloud uploading, department leaders can regulate evidence file access and individual permissions, preserving integrity.

- Heightens visibility
- Improves transparency
- Controls access
- Audit trails protect both evidence and users

4 No Additional Technology Required

Wrap Intinsic is designed to interface seamlessly with your existing technologies, including Computer-Aided Dispatch (CAD) and Records Management System (RMS).

- The User-friendly Wrap Intinsic Evidence on Cloud™ platform requires no extra specialized equipment, staff, or technological adaptations.
- Intuitive setup.
- Rapid, effective, and secure evidence management at your fingertips.

5 Wrap Saves Lives

A national leader in the development of field and training technologies, Wrap minimizes danger to both individuals and officers. Scores of law enforcement agencies worldwide currently employ Wrap to empower their officers while building and sustaining community trust.

Put Wrap Intinsic in the hands of your department.
